

SAHEB PAPER PVT. LTD.

Custom Enterprise Resource Planning (ERP) System & QR Traceability Architecture

Ref: SP-ERP-PROPOSAL-2026-V2

Date: August 15, 2026

Prepared For: Executive Management Board

1. EXECUTIVE PROJECT OVERVIEW & SCOPE DELIVERED

This custom-engineered Enterprise Resource Planning (ERP) system has been designed specifically for paper mill manufacturing operations, providing complete digitisation from **Raw Material Intake** to **Rewinder QR Labeling** and **Dispatch Gate Pass Generation**.

DELIVERED SYSTEM SCOPE & PLATFORMS:

-  **Android Native Mobile App (.apk)** — Operating on phones & tablets for plant operators.
-  **Windows Portable Desktop App (.exe)** — Installed on weighbridge & office PCs.
-  **Web Browser Cloud Access** — Instant access on laptops & remote management PCs.
-  **QR Engine & Label Generator** — Instant stickers for paper reels (TSC Thermal Printers / A4).
-  **Dual Camera & Laser Barcode Gun Scanner** — Live smartphone scan + handheld scanner support.
-  **9 Role-Based Access Accounts** — Admin, Boiler, ETP, Machine, Rewinder, Dispatch, Store.

2. MODULE-BY-MODULE CAPABILITIES REVIEW

MODULE NAME	CORE FUNCTIONALITY DELIVERED	AUTOMATION LOGIC
1. Executive Dashboard	Real-time KPI Scorecards, Daily Reel Weight, Yield Efficiency %, Stock Gauges & Financial Balance	Auto-syncs across all devices
2. Raw Material Stock	Track Waste Paper Lots (Indian Tissue, Import, SMK, Broke), Reorder Thresholds & Stock Valuation	Auto-deducts on Pulping
3. Pulp Mill Operations	Daily Fiber & Chemical Formula Mix (DSR, WSR, OBA), Cooking Temp & Consistency Logs	Auto-deducts raw stock
4. Machine Production	Machine Roll Logging (GSM, Width, Shift, Speed), Downtime Tracking & Blade Change Logs	Feeds into Rewinder
5. Rewinder Conversion	Auto-Incrementing Reel No , 11-Field Input Modal, Rule 6 Broke Auto-Loopback , & TSC QR Labels	Auto-adds Broke to Raw Stock
6. QR Code Scanner	Dual-Mode Live Camera Scanner + Manual Reel Search Input + Inline Spec Editor + Instant Dispatch	Dual Camera + Laser Gun

MODULE NAME	CORE FUNCTIONALITY DELIVERED	AUTOMATION LOGIC
7. Full Traceability	Genealogy audit graph: Waste Paper Lot → Pulp Batch → Machine Roll → Rewinder Reel → Dispatch	100% Audit Compliance
8. Utilities & ETP / Boiler	Boiler Fuel Wood & Water Consumption, Steam Pressure, ETP Chemical Dosing Logs	Compliance & Cost Audit
9. Finished Goods Stock	Inventory Cascading Filter (Product → GSM → Size → Ply) , Grade A vs B Stock Split	Real-time MT Weight Counter
10. Dispatch & Gate Pass	Packing Slip Generation, Customer Order Mapping, Vehicle Number Linking & Print Gate Pass	Auto-Minus Finished Stock

3. LOCAL DATA ENGINE VS. CLOUD DATABASE STORAGE ARCHITECTURE

System Flexibility: The application supports both **Zero-Cost Offline Local Storage** and **Multi-Location Cloud Synchronization**. Management can select the setup best suited for mill operations.

CRITERIA / FEATURE	 OPTION 1: LOCAL ENGINE (DEFAULT)	 OPTION 2: CLOUD DATABASE (OPTIONAL)	 OPTION 3: PRIVATE MILL SERVER
Monthly Bill	₹0 / Month (100% Free Lifetime)	₹500 – ₹1,500 / Month	₹0 Cloud Bill (Local Mini PC)
Internet Dependency	100% Offline (No Internet Needed)	Requires Active Internet	Works on Local Plant Wi-Fi
Data Speed	Instant 0ms Latency (Ultra Fast)	Depends on Internet Speed	Instant 0ms Local Wi-Fi Speed
Multi-Device Sync	Export/Import JSON Backup	Real-Time Live Auto-Sync	Real-Time Local Wi-Fi Auto-Sync
Data Security	100% Data Stays Inside Mill PCs	Secured on Enterprise Cloud	100% Data Stays Inside Mill Premises

4. ITEMIZED COMMERCIAL COST & INVESTMENT BREAKDOWN

SR	SYSTEM COMPONENT & ENGINEERING DESCRIPTION	MARKET VALUE	INVESTMENT (₹)
1	Core ERP Software Architecture & Custom UI/UX Branding (Logo, Address), 11 Modules, Glassmorphic Indigo Design System	₹2,50,000	₹24,000
2	Data Engine & Schema Architecture LocalStorage JSON Engine (Zero Cloud Fees), 17 Schemas, JSON Backup & Restore	₹80,000	₹8,500
3	QR Engine, Scanner & Thermal Printer Driver QR Code SVG generator, Camera Scanner + Barcode Gun Listener, TSC Drivers	₹50,000	₹6,500
4	Cross-Platform Build Pipeline Setup Android Native Project (.apk) & Windows Portable Executable (.exe) setup	₹60,000	₹8,000
5	On-Site System Deployment & Production Go-Live Installation on PCs/Mobiles, Hardware Drivers Setup, 6 Months Technical Support	₹45,000	₹8,000

SR	SYSTEM COMPONENT & ENGINEERING DESCRIPTION	MARKET VALUE	INVESTMENT (₹)
TOTAL COMMERCIAL MARKET VALUE		₹4,85,000	₹55,000
LESS: SPECIAL INAUGURAL DISCOUNT			- ₹7,000
NET TURNKEY INVESTMENT COST			₹48,000

5. COMMERCIAL PRICING PACKAGES

 **Turnkey ERP Package — ₹48,000 (One-Time Net Total)**
Includes Full Software (Windows + Android + Web), Complete Branding, On-Site Installation, Commissioning, Hardware Integration & 6 Months FREE Technical Support & Updates.

6. MILESTONE PAYMENT SCHEDULE

MILESTONE 1: ADVANCE Booking Token & Custom Setup ₹18,000	MILESTONE 2: DEPLOYMENT Installation on PCs & Mobiles ₹20,000	MILESTONE 3: GO-LIVE Production Handover & Go-Live ₹10,000
